# Session 1

# Session 1

**09:40 – 10:00**

Session 2

**SAF Realities: From Supply Chains to Market, Regulation, and Procurement Strategy**

Sustainable Aviation Fuels (SAF) is central to aviation’s net-zero targets but scaling it remains a challenge. This session will provide a comprehensive overview of SAF production, pricing trends, and procurement models. It will also highlight the regulatory challenges airlines are facing and explore possible solutions to overcome supply and infrastructure constraints.

10:00 – 11:30

Panel notes by Louise Burke, VP, Strategic Business Development NA Renewables and Global Head of Aviation – Argus Media Group

Moderated by Dmitry Terentiev, VP, Business Developments of Oil Products – Argus Media Group

Panelists:

- AACO Member Airline – TBC
- Ángel Luís Martínez Campos, Head of Airline Relations – Moeve
- Farah Mesmar, Regional Manager, Sustainability, Environment, and Aeropolitical Affairs – IATA AME
- Regulator – TBC

11:30 – 12:00

Coffee Break – AlReem Ballroom Foyer Area

Sponsored by

Session 3

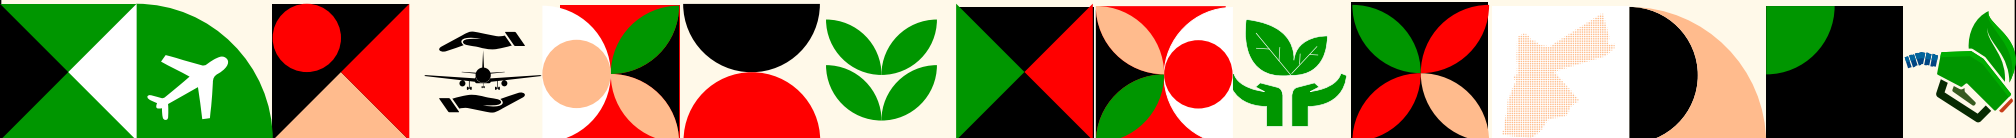

**Achieving Zero Emissions Refueling  
Sustainable Aviation Fuel (SAF): Navigating the Future of Aviation**

Presentation by Alexander Rech, Head of Business Development – TotalEnergies Aviation

12:00 – 13:00

**Achieving Zero Emissions Refueling**

Presentation by Richard Lewis, Aviation Sales Director – Electra Commercial Vehicles (UK)

Sponsored by

Session 4

Key Drivers of the Jet Fuel Markets Today and in the Future

What are the key drivers shaping the jet fuel market today?

- How are jet fuel price dynamics changing in response to shifting global oil flows and geopolitical tensions?
- SAF usage is accelerating. How are traditional jet fuel markets adapting and how important will CORSIA’s adoption be to decarbonizing aviation?

Presentation by Wesley Monteiro, Global Market Engagement Lead – S&P Global Commodity Insights

Global Oil Market Outlook: The key drivers of oil geopolitics

- Macro-economic trends and refined products demand – Jet fuel demand: Taking off
- Refining and Trade Flows: New capacity to the rescue but what does the long term look like?

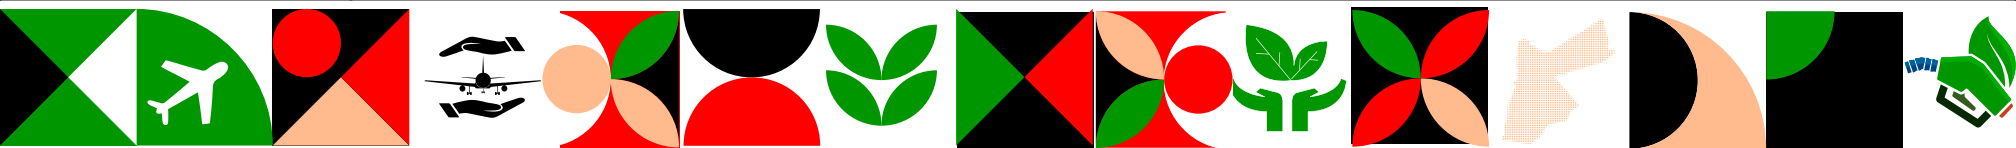

Presentation by Claire Godard, Middle East, Africa and CIS Insights Senior Director – S&P Global Commodity Insights

Session 5

Ensuring Operational Safety: This session aims to reinforce a strong culture of safety during fueling operations, focusing on best practices in aircraft fueling protocols.

Presentations by:

- Eng. Muhammad Azzam, HSSE & QA Manager – APSCO
- Eng. Adel AlFaifi, Specialist, Safety & Quality – Saudia
- Group discussion and feedback

Session 6	
16:00 – 16:30	<b>JIG Update</b> Presentation by Eng. Muhammad Azzam, HSSE & QA Manager – APSCO
16:30 – 17:00	<b>AFAG Steering Committee Meeting (by invitation Only)</b>
19:00 – 21:00	<b>Dinner – Location to be updated</b>
